

Installing Device Support for MAX V

Downloading MAX V support file from Quartus website:

- 1) Go to: <https://fpgasoftware.intel.com/?edition=lite>
- 2) Login using your credentials
- 3) Select the **Type and Version of the Quartus** that you are using from the drop down (**webpage page reloads after every selection**)
- 4) Select the **Type of OS** you are using
- 5) Go to Individual Files section
- 6) Download “**MAX II, MAX V device support**”, this will download the file “**max-*****.qdz**”

Installing on Ubuntu:

- 1) Open Quartus
- 2) Go to Tools-->Install Devices..
- 3) In the Dialog box, click on next, ignore the warning, if any
- 4) Browse for the Directory where “**max-*****.qdz**” is present
- 5) Click on next, if any prompt of version mismatch, then you have downloaded the file for some other version
- 6) Select/check the device MAX V, Install the device
- 7) After Installation is completed, close the Quartus and start it again

Installing on Windows:

Follow the same steps as mentioned for Ubuntu, if you get a **Prompt “Cannot Launch Device Installer”**, follow the steps below.

START/RUN-->search for “Device Installer”, Select “Device Installer”

Then follow the Steps same as that mentioned for Ubuntu
